2in1 Multi-COM SIM card (Iphone, Test Card)

Product ID: 7985

Price: **8.00 EUR**

Product weight: **0.01 kg**

Description:

2in1 Multi-COM SIM card (Iphone, Test Card) it's universal card for iPhone 2/3/4/5/6 or Ipad 2/3/Air activation as well as Test card for Motorola/SonyEricsson. By using this card you can easily activate your iPhone without having original card as well as use it for as standard test Card needed for SeTool or other SE softwares.

Note: Our card can be reprogrammed to given IMSI so it will still work as activation card !! No need to buy new card - just use Pkey programmer to program card to correct IMSI

NOTE: Also available other accessories for iPad/iPhone device:

MicroSIM cutter (iPhone Spirit), MicroSim iPad/iPhone Cutter (microsim-cutter.com), iPhone Micro Activation SIM, MicroSIM card converter, MicroSim -> Sim Card Converter v2, MicroSIM- > SIM converter (iPhone Spirit)

(click on manufacture name to go to correct category)
