Activation set RT-82 for iPhone 6 6+ 5 5c 5s 4s 4 / iPad

Product ID: 16601

Price: **19.00 EUR**

Product weight: **0.20 kg**

Description:

Activation set RT-82 for iPhone 6 6+ 5 5c 5s 4s 4 / iPad which includes latest SIM card that can be used to activate the iPhone / iPad as well as the test card. Latest card does not require a clean system to install the driver from the programmer, or can be programmed under Win7 64-bit. Most importantly, the new version has full control and the possibility of multiple programming not only IMSI as is the case of other type of cards but also ICCID, SMSC, IP1, IP2 or Auth Code. This gives you the opportunity to get into the phone emulating the original SIM card. The kit is supplied with dedicated software to create IMSI and card programming as well as adapters Nano / Micro SIM card.
