## AMAOE Mbga-B14 BGA reballing platform with stencils for CPU Exynos

Product ID: 22950

Price: **57.00 EUR**

Product weight: **1.00 kg**

### Description:

AMAOE Mbga-B14 BGA reballing platform with stencils for CPU Exynos- Reballing platforms are high-quality products that enable precise re-creation of balls connecting the upper and lower parts of the motherboard and for removing glue. Made of high-quality synthetic stone, resistant to high temperatures and quickly cooling down. Platforms equipped with very strong magnets that prevent movement during soldering work using templates / reballing sieves. CPU Exynos 9820 9815 9611 9609 9610 8895 8890 7904 7884 7885 7880 7870 7580 7570 7420 3475 1080 980 880.
