

AMAOE Mbga-B7 BGA reballing platform with stencils for CPU

Product ID: 22942

Price: **45.00 EUR**

Product weight: **1.00 kg**

Description:

AMAOE Mbga-B7 BGA reballing platform with stencils for CPU - Reballing platforms are high-quality products that enable precise re-creation of balls connecting the upper and lower parts of the motherboard and for removing glue. Made of high-quality synthetic stone, resistant to high temperatures and quickly cooling down. Platforms equipped with very strong magnets that prevent movement during soldering work using templates / reballing sieves. CPU MT6785V/6735V/3737/ 3753/ 6750/6755/6779V/6732/6752/6757V/6873V/6758V/6853V.
