## MAAOE Mbga/MFix-UBase BGA universal reballing platform

Product ID: 23040

Price: **33.00 EUR**

Product weight: **0.50 kg**

### Description:

MAAOE Mbga/MFix-UBase BGA universal reballing platform - Reballing platforms are high-quality products that enable precise re-creation of balls connecting the upper and lower parts of the motherboard and for removing glue. Made of high-quality synthetic stone, resistant to high temperatures and quickly cooling down. Platforms equipped with very strong magnets that prevent movement during soldering work using templates / reballing sieves.
