## Aoyue BGA 9000A Soldering system

---

Product ID: 16917

Price: **6999.00 EUR**

---

Product weight: **50.00 kg**

### Description:

Aoyue BGA 9000A Soldering system is digitally controlled, advanced BGA repair station. The system of split-vision video helps you to quickly position the solder system. It has optimizer is used for precise adjustment system on the album. The use of heat in the form of IR lamps helped to avoid the problems encountered when working with hot-air stations involving the blowing of surrounding components during soldering. The station is designed for lead-free soldering. Built-in heater accelerates the process of soldering, and avoids the effect of deformation of the plate.
