

Aoyue Int863 Compact Preheater

Product ID: 16905

Price: **249.00 EUR**

Product weight: **7.00 kg**

Description:

Aoyue Int863 Compact Preheater is a large IR preheater with big heating surface (250 mm x 200 mm) to suit a wide range of electronic circuit board sizes. An alternative technology to assist in gently preheating PCBs. Prevents PCB distortion by balancing heat on both sides of the board.
