

## ATAG NOR adapter for AirTag

Product ID: 23154

Price: **179.00 EUR**

Product weight: **0.30 kg**

### Description:

ATAG NOR adapter for AirTag is an adapter with a built-in programmer that allows access to data contained in the internal NOR memory of the GD25Q32. Our adapter simplifies reading the contents of the AirTag to a minimum - just remove the plastic cover and place the Air Tag in the module, insert the JIG into the adapter and connect it to USB to enable data reading.
