

DeepSpar PRO USB Stabilizer

Product ID: 22704

Price: **949.00 EUR**

Product weight: **0.50 kg**

Description:

DeepSpar PRO USB Stabilizer allows any Windows software to quickly and reliably work with unstable/degraded USB storage devices. It is a combination of software and a hardware device which connects between the PC and USB source drive. The source drive shows up in Windows as if it was connected directly, allowing any software to work with it.
