Desoldering Tape 80-3-5 Chemtronics Solder-Wick 2.0mm / 1.5m

Product ID: 21361

Price: **4.99 EUR**

Product weight: **0.10 kg**

Description:

Desoldering Tape 80-3-5 Chemtronics Solder-Wick 2.0mm / 1.5m is desoldering braid made from copper tape composed of many individual braided strips of copper. It is used to remove excess tin or cleaning paths of solder residues. Braid removes solder with solder connections by adhesion. It is made as a tangle-free oil impurities and oxide copper wire of very small diameter.
