

Dual BN300 FastBoot service cable for Motorola

Product ID: 21345

Price: **10.00 EUR**

Product weight: **0.10 kg**

Description:

Dual BN300 FastBoot service cable for Motorola lets you enter Fastboot mode without any hassle on all Motorola phones using microUSB and miniUSB socket connector. So far the problem during the service of the Motorola brand was put phone in FastBoot mode if the battery level of the phone was less than 20% - in this case received a message "Battery is down. Can not program". Now you can connect even discharged phone and perform maintenance without any batteries.
