## eMMC pullup 100Ohm cable for ISP eMMC to VR-Table (VR70/VR73M)

---

Product ID: 21283

Price: **10.00 EUR**

---

Product weight: **0.10 kg**

### Description:

eMMC pullup 100Ohm cable for ISP eMMC to VR-Table (VR70/VR73M) allows the amplification of the CMD or DATA signal with value 100Ohm for better stability while readings/writing process. The cable is connected to the corresponding socket Power Socket (eg. 1.8V, 2.8V or 3.3V) in the VR-Table and then connected with the signal that we want to strengthen ie. CMD or DATA. Cable can be used for 70 and 73M probes version in VR-Table
