

ESD brush with soft hair for all fluxes and pastes

Product ID: 22596

Price: **1.50 EUR**

Product weight: **0.20 kg**

Description:

ESD brush with soft hair for all fluxes and pastes designed for precise distribution of all fluxes, pastes and fluxes. The brush is used to apply and distribute fluxes, pastes, fluxes on circuits and printed circuit boards as well as for any cleaning of printed circuit boards and electronic devices. The brush is made of materials preventing electrostatic discharge (ESD), thanks to which any charges that appear will not damage the elements on the PCBs.
