

GMDSOft MD-PLUG

Product ID: 23242

Product weight: **1.00 kg**

Description:

MD-PLUG is a specialized hardware device engineered to seamlessly interoperate with MD-NEXT. The primary functions are to assist the advanced extraction process via secured channels and to mitigate potential variations from the diverse data extraction environment. MD-PLUG ensures a consistent USB connection to improve data extraction reliability and delivers advanced extraction capabilities.

NOTE: To purchase MD-Plug, you must have an active MD-NEXT license
