

## Jovy RE 7550 BGA Infrared Soldering Station

---

Product ID: 21901

Price: **1299.00 EUR**

---

Product weight: **72.00 kg**

### Description:

Jovy RE 7550 BGA Infrared Soldering Station with a table is compatible with lead-free soldering station technology. It is a specially designed infrared soldering iron that extends the ability of all professional and hobbyist repair and soldering services of smaller and larger components. Excellent technical solutions, amazing functionality and simplicity, while high quality makes it a product that will improve the quality of repairs. It is used for soldering BGAs, micro BGAs, QFPs, PLCCs, SOICs or SMDs.
