JV-LSU PCB Holder for X-Y Table Supports (Large)

Product ID: 8353

Price: **49.00 EUR**

Product weight: **0.42 kg**

Description:

JV-LSU PCB Holder for X-Y Table Supports (Large) PCB's warping, wrap and sag – Lead Free applications require high range of temperature for reworking or repair, it might be sag or warp during the process and it is particularly noticeable especially in thin PCBs such as those used in mobile applications, portable game consoles and the thin mother boards for Laptop. Large scale supporter JV-LSU supports larger boards from the bottom side with four main pins hold up the PCB to be placed away from any of the board components. Irregular PCB shapes could need both types of supporters together(JV-LSU & JV-SSU).
