Lamp 8069 LED SMD (190x157mm) ESD 8069D2LED-A with magnifier 5D 2-10W

Product ID: 22230

Price: **149.00 EUR**

Product weight: **20.00 kg**

Description:

Lamp 8069 LED SMD (190x157mm) ESD 8069D2LED-A with magnifier 5D 2-10W radiates bright, stable and reliable light, without the effect of reflections (glare) and harmless to the human eye. The combination of a magnifying lens and lighting allows for more accurate and deeper viewing of even small objects. You can use the lamp as a normal illuminating source, for example a work surface or use a magnifying glass depending on your needs. By mounting the lamp on movable joints you can adjust the height of its position and incline depending on your needs.
