### Description:

Martech Service Manager 1.1 Advanced online application for service management. Do you happen to be confused which repairs were meant to be done for the following day? MSM enables you to register repairs that have been accepted to your service, it will print all the confirmations as well as expertises and repairs data. The customer will be able to trace repair status online, only if you want to. Would you like to have an access to your base from every place without the necessity of taking the soft with you each time? You have an access to MSM 24 hours a day, 7 days a week, from all over the world, all you need is the Internet connection.

The highest quality ever and maintaining all security procedures is guaranteed by Martech Team - well known and present on the market for a long time .
