Martview RB-01 BGA rebalancing platform

Product ID: 22959

Price: **49.00 EUR**

Product weight: **0.30 kg**

Description:

Martview RB-01 +6 stencil rebalancing platform is characterized by high temperature resistance and abrasion resistance. The steel base and resistance to metal fatigue make the product more durable. Easy to clean platform. Silicone pads effectively insulate the temperature, preventing slipping and burns. The double magnet allows for accurate positioning with the mounting plate and holder. The platform supports the Martview RB-01 EMMC EMCP UFS standard BGA153 BGA162 BGA169 BGA186 BGA221 BGA254.
