Mijing T22 MAX double adjustable service holder for fixing PCB boards

Product ID: 22866

Price: **25.00 EUR**

Product weight: **0.40 kg**

Description:

Mijing T22 MAX double adjustable service holder for fixing PCB boards is a tool for fixing the electronic PCB board that facilitates repair during micro-soldering. The adjustment allows the installation of plates of various shapes, keeping them stable in a given place. Profiled clamps ensure stable fastening of the boards.
