Monolithic UFD flash drive MR19 NAND adapter

Product ID: 22103

Price: **299.00 EUR**

Product weight: **0.80 kg**

Description:

Monolithic UFD flash drive MR19 NAND adapter is high quality special adapter for memory flash drive using NAND protocol without soldering. The MR19 adapter is compatible with devices such as Visual NAND Reconstructor VNR (Rusolut), Flash Extractor (Soft Center) and PC3000 Flash (Ace Laboratory). The adapter replaces the need for any soldering to the card for reading and, thanks to unique solutions, it also enables quick XOR extraction or analysis and configuration of other pinouts than originally provided with the adapter using a logic analyzer. Use of the adapter minimizes the risk of card damage by soldering (ie pad breaking) and faster readings in microSD card technology mode using various NAND programmers.
