

Paint Thickness Gauge NexPTG - Advanced

Product ID: 21135

Price: **79.00 EUR**Product weight: **0.40 kg**

Description:

Paint Thickness Gauge NexPTG - Advanced Paint thickness meter NexPTG - Advanced is a modern gauge of paint thickness extended version of the NexPTG lacquer thickness meter, which enables fast, accurate and intuitive vehicle testing. Advanced is a higher model of the NexPTG meter, allowing for quick and precise measurements. In addition, the meter has a number of additional innovative options that will help the user to examine the vehicle more easily and efficiently. Thanks to the connection with the phone it gives huge possibilities unattainable for traditional meters. The Advanced version makes measurements more accurately than in the Standard version. Moreover, it is still enriched with additional functions, including: Suggested measurement points, Shopping guide, Export of measurement history, Creating reports. This is the most modern device of its kind on the market.
