

Paint Thickness Gauge SmartPTG Basic

Product ID: 21207

Price: **35.00 EUR**Product weight: **0.40 kg**

Description:

Paint Thickness Gauge SmartPTG Basic is modern paint thickness gauge II generation SmartPTG series of intelligent measurement system and interpretation of results. SmartPTG measure is effective in operation and easy to use, which allows you to perform fast and accurate measurements. Furthermore, the meter has a number of additional innovative options to help the user to more easily and efficiently explore the vehicle. With the combination of the phone gives you great opportunities not available to traditional gauges. As the only one to obtain accurate information about the vehicle through "SAPL" system. So we can easily detect even the slightest interference with the body and varnish coating, which are overlooked by traditional measures.
