GSM/LTE/WiFi/GPS MORO light grey

Phone case for locking signals GSM/LTE/WiFi/GPS MORO light grey

Product ID: 22014

Price: **12.00 EUR**

Product weight: **0.10 kg**

Description:

Phone case for locking signals GSM/LTE/WiFi/GPS MORO light grey it features Faraday cage for mobile phones that block both GSM / GPS / WiFi signals. Ideal for people who want to protect their privacy in selected locations. When you insert the phone into the case without having to turn it off, the device will lose its reach in a few seconds: the phone will be unmarked. The person trying to call a phone will hear a busy tone or a message that the subscriber is unreachable.

Dimensions: 170mm x 115mm x 3mm

Color: Moro- light grey

Material: fabric

Clasp: Velcro fastening

ATTENTION: The padding of the cover is made of microfiber fabric forming a Faraday mesh (ie, proper protection), so it is important to keep in mind the softness of the cover so that it is not damaged so that it loses its properties. Damage can be caused by bending the cover in half or rubbing.

The bag locks, for example:

- * bluetooth signals
- * WiFi signals
- * NFC signals
- * GSM, WCDMA, LTE and more
