Pneumatic LCD OCA TRX-50 professional vacuum laminator

Product ID: 21614

Price: **679.00 EUR**

Product weight: **10.00 kg**

Description:

Pneumatic LCD OCA TRX-50 professional vacuum laminator is used in OCA technology to repair LCD screens. Unit comes with a set of seven forms (iPhone 5, 5C, 5S, 6, 6+, 6S, 6S +, EDGE Samsung S6, S6 EDGE +), and pneumatic fittings. Laminator is used for applying patches of adhesive OCA on the phone display to glue it to the new fast. Yes sized display with fast goes into the autoclave which is also in our offer. Laminator can also be used to replace filters or polarizing layers of protective LCD. The device is characterized by high accuracy and the ability to quickly carry out the whole process of applying patches OCA or replacement polarizers.
