## PowerLab I-3030D DC 30V/30A LED laboratory power supply

Product ID: 22918

Price: **249.00 EUR**

Product weight: **5.00 kg**

### Description:

PowerLab I-3030D DC 30V/30A LED laboratory power supply - has electronic DC voltage stabilization with a current limiter protecting the powered devices against excessive load. DC adapter output current 0-20A 0-30A . Smooth, stepless setting of the output voltage using a potentiometer. Built-in output current limiter with smooth regulation of the maximum current. Simultaneous reading of voltage and current on two LED displays. The power supplies have a solid, grounded housing.
