

Profiled silicone mat for iPhone 5G

Product ID: 21918

Price: **12.00 EUR**

Product weight: **0.10 kg**

Description:

Profiled silicone mat for iPhone 5G is a high-tech profiled silicone mat used in soldering. Just place the mat on the preheater to safely start the soldering using hotair or iron without damage of PCB. The mat, in addition to its protective properties, serves as a stabilizer for soldered circuits because of its anti-slip properties.
