

Protection LCD pad for OCA laminator/press

Product ID: 16546

Price: **15.00 EUR**Product weight: **0.40 kg**

Description:

Protection LCD pad for OCA laminator/press is a specialized mat made from resistant to the high temperatures rubber and used in the OCA laminator to protect the LCD. Despite the 10mm thick pad does not deform during the stage of vacuum in the laminator perfectly protecting the display of the press, spreading the force over the entire surface of the LCD.
