QIANLI iATLAS 24K solder explosion proof 24K Gold plated Foil 0.08/0.10/0.12mm

Product ID: 22857

Price: **32.00 EUR**

Product weight: **0.30 kg**

Description:

QIANLI iATLAS 24K solder explosion proof 24K Gold plated Foil 0.08/0.10/0.12mm a set of gold-plated spacers 0.08/0.10/0.12mm that enable trouble-free connection of motherboards as well as mounting large BGA systems. They solve the problem of the effect of connecting BGA balls, which is the effect of pressure of the BGA system / plate, creating a minimum distance between the board spaces.
