

Quick 709D+ soldering set station 70W + HOT-AIR 1350W 50l/min

Product ID: 22912

Price: **309.00 EUR**

Product weight: **4.00 kg**

Description:

Quick 709D+ soldering set station 70W + HOT-AIR 1350W 50l/min - This Quick 709D+ rework system with an excellent price/quality ratio includes a very powerful 1350 Watt hot-air soldering station and a 70 Watt soldering station. Since the Quick 709D+ is a 2-in-1 design, it is multifunctional and saves space on your workbench. On the LCD display, a dynamic visual of the temperature of rework and soldering as well as the digital temperature calibration is shown. Moreover, the rework section as well as the soldering section of the Quick 709D+ have a temperature stability of $\pm 2 \text{ }^{\circ}\text{C}$. The rework system comes with handles which are ergonomic, light and comfortable to use. Furthermore, the rework system is provided with functionalities such as intelligent auto sleeping and energy saving.
