Quick Chip 1.0 165mm

Product ID: 21880

Price: **6.00 EUR**

Product weight: **1.00 kg**

Description:

Quick Chip 1.0 165mm is a low-melting In & Bi brazing alloy which melts at 58 °C. Applying the CHIP QUIK to the outlets, heating them with a solder leads to the formation of a low melting melt on which the SMD integrated circuits make it easy to scratch and remove the circuit from the printed circuit board.
