RF4 RF-4KC1 4K HDMI USB digital camera with max resolution 3840x2160 30FPS

Product ID: 23041

Price: **149.00 EUR**

Product weight: **1.20 kg**

Description:

RF4 RF-4KC1 4K HDMI USB digital camera with max resolution 3840x2160 30FPS with advanced dimensioning software, remote control, HDMI and USB ports, and image and video recording on microSD cards. Transmits the image via the HDMI/USB connector to the monitor screen, records the image on a microSD card using the included software with measurement of the size of elements. The camera can be connected to a monitor or computer using an HDMI or USB cable (included). It provides excellent color reproduction with very low noise and is a great choice wherever color fidelity is important.
