Roller for applying the protective films and adhesive OCA LCD 315mm/24"

Product ID: 21146

Price: **29.00 EUR**

Product weight: **1.00 kg**

Description:

Roller for applying the protective films and adhesive OCA LCD 315mm/24" universal rubber roller for applying films and patches on the LCD. Designed to repair and laminating display phones, smartphones and tablets. The roller is ideal for applying patches or new OCA polarizers for LCD screens, but also well eliminate air bubbles when applying protective films.
