RU-PRO (RU-EMMC) converter for VNR Rusolut to connect MR adapters

Product ID: 22240

Price: **40.00 EUR**

Product weight: **0.10 kg**

Description:

RU-PRO (RU-EMMC) converter for VNR Rusolut to connect MR adapters is an additional adapter that allows you to connect of MR series adapters to Visual NAND Reconstructor (Rusolut) for reading through NAND. The converter, unlike the standard version, has additional filters as well as the possibility of using two voltages VCC and VCCQ, and supports 4 independent R/B signals. The adapter supports only 8bit transmissions.
