

SD/MicroSD reader for a Z3x JTAG Plus - 1bit

Product ID: 22743

Price: **15.00 EUR**

Product weight: **0.10 kg**

Description:

SD/MicroSD reader for a Z3x JTAG Plus - 1bit allows you to read SD and MicroSD cards via Z3x Box Plus. By using the option of skipping bad sectors and selecting a voltage other than the standard 3.3V by the Z3x Box Plus, it is possible to physically dump problematic memories that the standard SD / MicroSD card reader cannot copy. The reader works in 1 bit mode and is compatible with the Z3X ISP pinout.
