SEEK Thermal Compact Pro microUSB Android (UQ-EAAX)

Product ID: 22723

Price: **529.00 EUR**

Product weight: **0.40 kg**

Description:

SEEK Thermal Compact Pro microUSB Android (UQ-EAAX) is a thermal imaging camera with a 320x240 pixel Thermal Sensor and a 32 degree wide field of view, detecting temperatures from -40 to +330 degrees Celsius over an area from 15 centimeters up to 550 meters. With FastFrame technology, the image is smoothly displayed. Works both day and night. Operated from the free Seek mobile app. Simple to use and effective camera compatible with most popular Android devices (version min. 4.3) and micro USB input will extend the capabilities of your smartphone. The set includes a very useful in all conditions waterproof case.
