

## Techot TH-490 Soldering Station

---

Product ID: 14687

Price: **1029.00 EUR**

---

Product weight: **30.00 kg**

### Description:

Techot TH-490 Soldering Station is a professional soldering station designed to replace BGA chip on PCB boards requiring high power heating. Suitable for use with both leaded or lead free tin. Thanks to the programmable profiles and high quality heating elements we have precise control over the process of soldering and thus the effectiveness of repair. High power output makes the TH-490 is the perfect tool for electronic services specializing in the repair of laptops and consoles.
