Test Point JTAG PCB Professional (24 pcs)

Product ID: 1385

Price: **60.00 EUR**

Product weight: **0.47 kg**

Description:

Test Point JTAG PCB Professional it's full pack of 24 adapters to use with Sagem Code Reader, SagMaster, SagDD or SWS-Sag Box without soldering to PCB. Now you do not have to solder test point wires any more. Using our simple PCB connectors you can save time and avoid risk of damaging phone's mainboard by soldering wires - now you do not have to use soldering iron. Connection is very easy - just open phone's cover and connect device with phone's PCB. Then plug it into device. Special design ensures good connectivity with test points and stable work.
