

The soldering tip cleaner

Product ID: 22890

Price: **6.00 EUR**

Product weight: **0.40 kg**

Description:

The soldering tip cleaner is an effective method of quickly cleaning soldering tips without heat loss. The entire cleaning process is done using low abrasion brass, minimizing thermal fluctuations compared to using a wet sponge and reducing the oxidation of the tip surface. It has a stainless steel housing, resistant to high temperatures.
