Upper Heater Reflector Jovy JV-UR22

Product ID: 8358

Price: **20.00 EUR**

Product weight: **0.17 kg**

Description:

Upper Heater Reflector Jovy JV-UR22 is designed to control the heat emitted from the upper heater allowing infrared waves to travel straightly through the specified window space and reflecting extra waves away from the working area. Jovy Systems JV-UR22 upper heater reflector functions as a nozzle, preventing other components from direct infrared effect. Upper heater reflector size 20x20mm.
