Upper Heater Reflector Jovy JV-UR33

Product ID: 8357

Price: **20.00 EUR**

Product weight: **0.17 kg**

Description:

Upper Heater Reflector Jovy JV-UR33 is designed to control the heat emitted from the upper heater allowing infrared waves to travel straightly through the specified window space and reflecting extra waves away from the working area. Jovy Systems JV-UR33 upper heater reflector functions as a nozzle, preventing other components from direct infrared effect. Upper heater reflector size 30x30mm.
