Product weight: **14.00 kg**

### Description:

Vacuum separator TBK-318 7,3" with OCA/LOCA delamination function is separator used to separate glass / touch screen of the LCD display on mobile devices, ie phones, smartphones tablets. The heater heats the screen and display that joined OCA / LOCA adhesive (in practice enough temperature 80-100C) and then using a very thin molybdenum wire cuts a bonded both. Model TBK-318 has an additional function of delamination or removal of adhesive residue LOCA / OCA. Removal of the adhesive takes place by means of a heated blade 100x18mm.
