

VPP adapter for Furious Blink Blink

Product ID: 4058

Price: **12.00 EUR**

Product weight: **0.02 kg**

Description:

VPP adapter for Furious Blink Blink it's special adapter that add USB connection (VPP +5V) to your existing cable. By using it you can properly power ON your phone to work withou battery if needed (as example TP's or power supply directly from computer). You connect adapter to box and to adapter you connect cable - then you must only put USB from adapter to port computer (not to BOX computer since it's limited 100mA)

This adapter are used only for Bllink Blink edition - if you got old version of Furious Box it's not needed since power supply there are not limisted so got 500mA
