Description:

Workshop LED SMD lamp with a magnifying glass (152mm) 8070LED-U 5dpt 2.5-12W lamp attached to the table top on movable joints, allowing for height and angle adjustment. LED diodes emit bright, stable and reliable light, without the effect of reflections (glare) and harmless to the human eye. The combination of a magnifying lens with lighting allows you to see even small objects more accurately and deeply.
