## X-ray service of micro SD, SD, UFD cards

---

Product ID: 22559

Price: **179.00 EUR**

---

Product weight: **0.00 kg**

### Description:

X-ray service of micro SD, SD, UFD cards is a service dedicated to research laboratories that enables insight into internal copper layers in order to identify pinouts, interrupts, and short circuits during data recovery. This method is used especially in cases where the first copper layer is a full monolith block (without the NAND process signal leads) and all leads are in the second or third layer .
